Segregation Barrier Kits

Segregation Barrier Kits

- Gloss white powder coated Zinc Annealed steel segregation barrier kits.
- Available for AB Accessory module enclosures
- Available for both IP42 and IP56 accessory module
- Mounted directly on to the mounting rails
- Segregation format table available for easy escutcheon selection to achieve Form 2 separation.
- Can be used in 200 and 300mm deep enclosures
- Note: When using a segregation barrier, separate mounting rails are required to suit each section being segregated

Part No.	Description
DB-RMUL6S-W	Segregation bottom piece
DB-RMUL6S300-W	Segregation bottom piece to suit 300mm deep enclosure
DB-RMUL6-W	Segregation top piece to suit IP42 AB accessory enclosures
DB-RMUL6-WP-W	Segregation top piece to suit IP56 AB accessory enclosures

Segregation Format Table

When This table depicts the different format options that can be created when using the removable segregation partition inside an AB accessory module enclosure.  
This option can be used in both the IP42 and IP56 accessory module enclosures.

Enclosure Part No.	Enclosure Height/mm	Format Options/Escutcheon heights	
		Top Section/mm	Bottom Section/mm
AB10-□□□	1050	750	300
		300	750
AB12-□□□	1200	900	300
		750	450
		450	750
		300	900
AB15-□□□	1500	900	600
		750	750 (not IP56)
		600	900
		1200	600
AB18-□□□	1800	1050	750
		900	900 (not IP56)
		750	1050
		600	1200
AB21-□□□	2100	1500	600
		1200	900
		1050	1050 (not IP56)
		900	1200
		600	1500

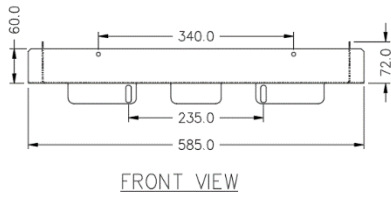

Note: AB15 format option 750mm/750mm, AB18 format option 900mm/900mm, AB21 format option 1050mm/1050mm

All the above listed format options are not possible for IP56 enclosures. The three-point lock swing handle of the IP56 enclosure overlaps with the segregation barrier, because of this overlap the format option is not viable.
